

COMPANY SUMMARY:

REV is an Electrical Services based company founded in 2008 specializing in Custom Manufactured Products and Turn-Key Solutions that utilizes Field Services and in house Engineering. REV specializes in products related to High Voltage/Power electrical distribution systems.

As a fully accredited member of the International Electrical Testing Association (NETA), REV has elevated requirements and evaluation of our staff's technical expertise to a measurable recognized ANSI Standard. With our offers and services, REV has positioned itself at the leading edge of the Electrical Power Industry to serve the Western Canadian Market Place.

COMPANY NAME: REV Engineering Ltd.

POSITION TITLE: Intermediate Field Service Representative

DEPARTMENT: Field Service

REPORTS TO: Field Services Manager

POSITION SUMMARY:

This position is well suited for a mid-level Power Systems Electrician or Electrical Technologist who is confident working with High Voltage power systems and is interested in developing their career through continued field experience and leadership opportunity. With 2-3 years of field service experience, the ideal candidate will be safety conscious with a positive attitude and be a team player, with the ambition to continue developing their leadership skills. Building your career at REV, you will continue to receive extensive training on all safety precautions associated with working on or around High Voltage electrical equipment as well as training in the use of a variety of test equipment.

POSITION DUTIES / RESPONSIBILITIES:

Building your career with REV as a Field Service Representative, you will be provided continued field experience and leadership opportunities. Duties will consist of involvement in Field Service projects and independently coordinating Electrical Maintenance and Commissioning projects at client facilities. Acting as a team leader, the position offers mentorship to apprentice technicians and the opportunity to develop leadership skills for continued development on a career path towards becoming a Field Service Supervisor with REV. The Intermediate

Field Service Representative will be responsible for executing the following job functions:

- Continued Field Service involvement and project leadership
- Testing of microprocessor protective relays (Schweitzer, GE Multilin, etc.)
- Doble testing of electrical equipment (Transformers, Circuit breakers, etc.)
- Electrical switching and clearance for isolation
- Testing and commissioning electrical apparatus and protection and control equipment and systems (480/600V 4000A industrial distributions to 240kV 100MVA substations)
- Coordination of smaller projects independently of Supervisors and Project Managers
- Troubleshooting of electrical circuits and providing support to other field staff in emergency situations
- Being involved in the 24hr emergency response rotation with REV
- Preparation of technical reports for completed services at clients facilities

POSITION QUALIFICATIONS:

- 2-3 years' experience in a Power Systems Electrician or Electrical Engineering Technologist role
- Power Systems Electrician, Electrical Engineering Technologist Diploma or Electrical Engineering Degree from an accredited Canadian institution
- Previous experience in an industrial capacity with a notable willingness to learn and develop new skills
- Strong mechanical aptitude required, proficient in the use of hand and power tools
- Energetic team player interested in continuing their field experience
- Safety conscious with an interest in continued learning of safety precautions and procedures
- Adaptable to a fast paced work environment
- Exceptional written and verbal English communication skills
- Good PC skills with Microsoft Office Products

ADDITIONAL INFORMATION / REQUIREMENTS:

- Available for frequent intermittent travel of short duration, occasionally with minimal notice
- Experience working in variable weather conditions
- Flexibility for 24/7 emergency on call rotation and weekend work
- On the job safety training will include: First Aid, WHIMIS, H₂S Alive, CSTS, Fall Arrest, Confined Space, Basic Electrical Safety, Arc Flash Awareness
- Must be able to meet customer site Pre-Access requirements

LOCATION: Calgary, AB

WAGE / SALARY: Competitive Salary & Comprehensive Benefit Package

DURATION: Full-Time

ITEMS TO INCLUDE IN APPLICATION: Resume / Cover Letter

APPLICATION CLOSING DATE: Will remain open until suitable candidate is found.

If you feel that you are uniquely qualified for this position please submit your resume and cover letter for review to <https://www.fitzii.com/apply/63427>.

We thank all applicants for their interest in this position; however, only those who most closely match REV's requirements will be contacted.

All information submitted will be reviewed and will remain in strict confidence.
